2 Oct 13:00-

Guidance

Exercises in Mechano-Informatics

4850-2004 知能機械情報学特別演習

(4850-2003 知能機械情報学演習)

Kento Kawaharazuka
Lecturer, The University of Tokyo

Aim of the exercises

1. **Look down upon the cutting-edge research in Mechano-Informatics**

Aim of the exercises

1. Look down upon the cutting-edge research in Mechano-Informatics

2. **Brush up your research presentation and English skills**

Aim of the exercises

1. Look down upon the cutting-edge research in Mechano-Informatics

2. Brush up your research presentation and English skills

3. **Make friends!**

Schedule

The lab tour will be at
Engineering Building 2, Hongo campus,
except Jan. 8th

1. **Oct. 2nd: Guidance (online via Zoom)** ←today
2. Oct. 9th: no lecture for preparation
3. Oct. 16th: Lab tour 1: Kuniyoshi-Nakajima-Daikoku Lab (Room B12C1, B1F)
4. Oct. 23rd: Lab tour 2: Takahashi-Shiramatsu Lab (Room 81B)
5. Oct. 30th: Lab tour 3: Fukao-Nishio-Zheng Lab (Room 82C1)
6. Nov. 6th: Lab tour 4: Okada-Kojima-Kawaharazuka Lab (Room 73B2)
7. Nov. 13th: Lab tour 5: Takeuchi-Nie Lab (Room 81D1)
8. Dec 4th: Lab tour 6: Kuzuoka-Narumi-Tanikawa Lab (Room 83C1)
9. Dec 11th: Lab tour 7: Nihei Lab (Room 83B1)

10. Dec 18th: Master Thesis Mid-term Presentation for the Department of Mechano-informatics (Day1)
11. Dec 25th: Master Thesis Mid-term Presentation for the Department of Mechano-informatics (Day2)

12. Jan 8th: Lab tour 8: Harada-Mukuta Lab (**Komaba, RCAST Bldg. 4, Room 424, from 1:30 PM**)

13. Jan 22nd: Presentation by students from departments other than Mechano-informatics (**online**)

Location/URL will be announced on UTOL

Confidentiality

- In general, as academic researchers, we must make our research activities publicly accessible.
- However, we also need to protect the confidentiality of our work until it is officially disclosed, such as through the publication of a paper or the filing of a patent.
- This course does not require you to sign a confidentiality agreement.
- Please note that confidential materials must not be included in lab tours or research presentations.
- Make sure to have your presentation and tour content reviewed by your supervisor in advance

Lab tour

- Students of Mechano-Informatics will **host your lab's tour**.

- Students not belonging to Mechano-Informatics will make an online presentation **introducing your lab's activity**.

Presenters must:

give a 10-min presentation introducing the activities of the lab (the presentation duration may vary depending on your supervisor)

The presentation may contain:

What are the major goals of your lab?
What are representative projects of your lab?
What are the advantages of your lab?

Lab tour (continued)

- Listeners must:
  - actively ask questions
  - submit the comments as the assignment in **UTOL**
  - summarize each presentation in the assignment

- Details about each lab tour will be announced via **UTOL**

- Please register yourself to ***4850-2004*** (Exercises in Mechano-Informatics) in ITC-LMS, *NOT 4850-2003* (Mechano-Informatics Laboratory).

Assignment

- You must submit comments on the lab tour. We confirm your attendance by checking the comment sheets.

- Comments must be **scientific, constructive,** and **concrete.**

Please write the following points for **each presentation**
(1) a brief description of the presentation (20-50 words)
(2) good points of the presentation (20-50 words)
(3) suggestions to improve the presentation (20-50 words)

Presenter 1 (name)
(1) The xxx system was explained in the presentation. …
(2) …
(3) …
Presenter 2 (name)
(1)
(2)
(3)
Presenter 3 (name)
(1)
(2)
(3)

修士論文中間発表

(To students who belong to Mechano-Informatics)

- 修士論文の中間発表を12月18日と25日に予定しています
- 詳細は後日連絡します
- 対象者
  - 2025年4月以降の入学で未発表の者を対象とし、**主な対象者は2026年4月入学者**。ただし、留学や休学などの事情がある者や2026年9月入学者については指導教員とよく相談すること。

- 10月23日までに事務室に以下のフォームからタイトルを提出してください（メール周知もあります）
- https://forms.gle/EsuyysXr7e8sacXn8

- 中間発表では秘密保持をしたうえで、最新の研究状況を発表してもらいます
